Vitality Living streamlines financial workflows with **Yardi Voyager Senior Housing**

Preventing errors

**MANUAL PROCESSES
ELIMINATED**

Saving time

**DAYS GAINED BACK
ACROSS TEAMS**

Gaining one source of truth

**DATA CENTRALIZED
ON A SINGLE
PLATFORM**

THE CHALLENGE

Vitality previously used a mix of siloed technology and manual processes. The lack of a single connected solution meant leaders didn't have true visibility or a reliable method for retrieving key information.

THE SOLUTION

As a community management powerhouse, Voyager Senior Housing helps Vitality access automated accounting functions, real-time reporting and complete business oversight in one centralized location.

Real senior living operator, real results

Thanks to Voyager Senior Housing, Vitality saves time and prevents errors across the board

MANUAL PROCESSES ELIMINATED

With Voyager Senior Housing automating tasks Vitality previously did manually, avoidable errors such as duplicate data entry have been mitigated. Financial data and resident records are readily updated and centrally stored, helping leaders ensure accuracy — and gain visibility across the financial, care and operational aspects of the business.

DAYS GAINED BACK ACROSS TEAMS

Vitality said goodbye to time drainers when they partnered with Yardi. Since Voyager Senior Housing acts as their complete general ledger system, Vitality has drastically reduced time spent on key financial accounting tasks, allowing team members to shift and focus on other priorities. Moving to a single connected solution has given Vitality's teams days back in their monthly schedule.

“There’s a tremendous amount of benefit with Yardi — having one landing place where we have access to all these different modules.”
