Key Benefits

• Automates workflows and eliminates error-prone processes
• Reduces general and administrative costs
• Provides the flexibility to scale operations for growth strategies
• Improves strategic decision-making and competitiveness through enhanced business intelligence
• Delivers complete transparency across your entire operation
• Shortens training cycles and drives higher productivity
• Allows staff to work from any browser on any mobile device
• Includes hassle-free application, database and network management with secure SaaS options
Enhance the value of your portfolio with a full business solution that streamlines the property and financial management aspects of the commercial real estate cycle.
Yardi Voyager Commercial

Our most advanced Software as a Service (SaaS) commercial property management and accounting platform allows office, retail and industrial real estate owners to manage portfolios of any size from one platform. Browser-agnostic and fully mobile, Yardi Voyager drives workforce efficiency, promotes portfolio visibility and delivers comprehensive business intelligence. It manages ownership, operations, financials, budgets, forecasts, construction and maintenance with role-based dashboards, workflows, critical date notifications and analytics.

Automated Lease Administration

Lease administrators can set up even the most complicated industrial, office and retail leases and amendments with Voyager’s automated leasing workflow. It’s easy to drill down to lease modification details such as expansions, contractions, relocations, holdovers and renewals. Leases can be organized by customer, simplifying the billing and analysis of multiple leases for national tenants.

Streamlined Recoveries

Voyager simplifies one of the most complex and time-consuming aspects of property management by automating the recoveries process and compiling an accurate accounting of what tenants owe. Property owners no longer need to reconcile variables such as base years, caps, gross-ups and management fees. A collectors workstation function chases overdue balances and efficiently records results.

Critical Dates, Tasks & Notifications

You’ll never miss an important deadline again, thanks to the integration of dates and tasks into user dashboards. You can automate tasks or email notifications based on dates you define, including lease expirations, option notices and tenant insurance expirations. Voyager also centralizes all tax schedules and payments and supports internal audit functions.
Key Features

- Controlled administration of leases and amendments including lease option management with encumbrance tracking
- Integrated accounting and property management functions
- Role-based dashboards and critical date notifications
- Simplified setup of complex expense recoveries
- Complete retail percentage rent calculations
- Easy straight-line rent adjustments for FAS 13 and IAS 17
- Real-time analytics, dashboards and business intelligence
- Quick access to regularly visited screens and history
- Supports multiple currencies, languages, GAAP and local taxation requirements

Customized Correspondence

Take tenant communications to the next level with Yardi Correspondence Management. You can create customized invoices, statements, collection letters and other items. Templates merge with lease data, reports and graphs. Documents are automatically emailed, printed or stored electronically.

Advanced Retail

Voyager makes it simple to track sales and charge percentage rents. Easily define sales types and reporting and billing frequencies and breakpoints, including an automatic calculation of natural breakpoints. You get up-to-the-minute retail analytics on sales, including MTD, YTD, Moving Annual Total (MAT) comparisons and tenant occupancy costs.
Portfolio Reporting & Analysis

Role-Based Dashboard
View your property management tasks and performance across your portfolio in a single, user-friendly interface. Property managers can track critical dates, view pending lease workflow actions and work order summaries, and access key reports. Drill down to transaction-level detail is quick and easy.

Real-Time Analysis
Managers receive real-time key performance indicators with the Yardi Analytics reporting tool. Drill down to source transaction and slice and dice data by attribute such as portfolio, region and currency.

• Analyze by attribute, entity, GL book, segment and period
• Drill down from summary to source transaction
• Publish to Microsoft® Excel or Adobe® PDF
• Email report packages automatically
• Create your own KPIs with custom analytics

Commercial Analytics
Leverage comprehensive reporting on your portfolio with commercial analytics ranging from owner reports to internal exception and management reporting. Real-time KPIs for lease management, recovery reconciliation, performance statistics and more are at your fingertips. You can create and publish reports through Microsoft® Excel and Microsoft® SQL Server Reporting Services.
Financial Analytics

Yardi Analytics delivers the robust reporting and key indicators you need to measure your portfolio’s performance. You can create instant comparisons and analytics and compile monthly, quarterly and yearly financial report packages in real time. You can arrange income statements by user-defined property attributes, view your balance sheet by country and currency, and publish financial reports to an investor portal with the click of a button.

- Supports IFRS, GAAP and international accounting needs
- Automated delivery with correspondence management
- Reporting speed optimized by Voyager data marts
- Financial reports using custom analytics
- Used by publicly traded companies around the world

Spreadsheet Reporting

Yardi Spreadsheet Reporting gives you the means to create and publish high-quality reports for your internal and external audiences. You can create templates in Microsoft® Word, Microsoft® Excel and Adobe® PDF or display the data on screen.

- Presentation-quality reports with text, grids and graphs
- Report packets combining different types of reports
- Complex reports with multiple sections
- Easy sorting, grouping and sub-totaling
- Customizable reports by changing filters and data columns

Key Features

- Commercial and financial analytics and insight for better decisions
- Multiple GAAP, multi-language and multi-currency capabilities
- SSAE 18 compliance via Yardi Cloud Services
- Real-time, 24/7 access to operational data with Yardi Mobile Apps
Key Benefits

• Recommends actions to help lower costs, balance risk and increase revenue

• Allows greater insight, more accurate forecasting and improved project tracking

• Provides the tools to close deals faster, complete projects on time and hit forecasted returns
Asset Management

Elevate the performance of your portfolio with one connected solution for asset management.
DEAL MANAGER
CLOSE BETTER DEALS, FASTER

Get an easy-to-use deal management solution for asset managers and their internal and external brokers.

- Gain integrated stacking and floor plans with encumbrances, options contracts and renewals
- View real-time current and future availability based on abstracted in-place contract leases
- Enable individual and team collaboration on properties, deals and prospects
- Maximize NER with deal comparison to budget, spec and prior lease
- Reduce cycle times by connecting users and automating approvals

- Bring active deals automatically from Deal Manager into the revenue forecast
- Manage MLAs at scale with market management
- Merge, split and combine units with space management
- Forecast revenue by risk and exception

FORECAST MANAGER
ENVISION THE FUTURE

Eliminate the budgeting process and improve accuracy with rolling revenue forecasting.

- Streamline the forecasting process and eliminate error-prone spreadsheets by connecting leasing and asset management

CONSTRUCTION MANAGER
STAY ON TIME AND ON BUDGET

Mitigate risk and improve cost control, budget oversight and profitability with portfolio-wide visibility.

- Search and compare projects according to job type, milestone, status, manager and risk level
- Gain visibility into tenant improvement pipeline from active deals in Deal Manager
- Improve vendor selection with an integrated RFP and bidding system
- Use easy approval workflows for budgets, revisions, contracts, change orders and invoice registers
- Manage CAPEX and potential cost changes and tie them to budget
Streamline management of equipment maintenance, property inspections and service requests.

- Track work orders, equipment and inspections
- Reduce repairs and overall equipment costs with preventative maintenance
- Connect tenants, technicians and property management on a single system
- Improve visibility and obtain recommended actions to drive property performance
- View equipment, maintenance and cost data via specialized dashboards

Key Features

- Integrated stacking plans with encumbrances, options, contacts and renewals
- Search availability based on Voyager lease expiration data
- Filter by risks, deals, assumptions and reconfigurations
- Closer team collaboration on properties, deals and prospects
- Customized NER calculations and comparisons
- Centralized marketing of available space
- Automatic inclusion of active deals into revenue forecasts
- Complete construction pipeline visibility
- Simplified maintenance scheduling
- Specialized dashboards for viewing equipment, maintenance and cost data
Key Benefits

• Raises retention rates with convenient online tenant services
• Reduces costs with enhanced staff efficiency
• Shortens accounts receivable lifecycles by enabling online payments
• Reduces service request response times with mobile functionality
Tenant Services

Deliver outstanding customer service and help your staff work more efficiently.
COMMERCIALCafé

Enhance the tenant experience and eliminate manual tasks with a powerful, mobile self-service platform. COMMERCIALCafé lets tenants make online payments, submit maintenance requests and enter retail sales data.

Payment Convenience

COMMERCIALCafé gives tenants a paperless self-service option for making payments and accessing records such as lease documents and tenant statements. Site employees can spend more time on high-value operations instead of processing payments.

Seamless Services

Work orders, including images, go directly to maintenance employees for immediate action, increasing tenant satisfaction and improving staff productivity. Tenants can reserve conference rooms, elevators and common areas through COMMERCIALCafé.
Tenant Outreach

Stay connected to your tenants. Use COMMERCIALCafé to deliver property documents, event notifications and more. Measure tenant satisfaction with auto-generated surveys.

Key Features

- Secure tenant portals for online payments, retail sales reporting, maintenance requests and more
- Tenant payments that apply to charges in Yardi Voyager
- Immediate delivery of work orders to technicians' mobile devices
- Direct, timely online communication to tenants
- Online scheduling of conference rooms, common areas and other amenities
- Tenant surveys for completed work requests
- Integration with core work orders and Yardi Facility Manager

Quality Measurement

COMMERCIALCafé generates surveys to measure satisfaction with work requests submitted through the tenant portal. The system includes automated tenant email notification upon work order completion.

Mobile Extension

Extend self-service convenience even further with the COMMERCIALCafé Tenant app that helps tenants view records, initiate payments, download documents and submit and track maintenance requests from any location.
Key Benefits

• Reduces process cycle times for budgets, long-term forecasts and valuations

• Increases budget projection accuracy to help maximize profitability

• Easily forecasts revenue, job cost, CAPEX and debt based on configurable models

• Allows efficient, error-free collaboration so multiple people can work on a single budget at the same time

• Leverages multi-currency capabilities and international valuation techniques
Budgeting & Forecasting

Make quick, accurate and flexible forecasts and deliver budget projections with increased accuracy.
Yardi Advanced Budgeting & Forecasting

Measuring the financial health of your investments is an essential function for commercial real estate owners, managers and investors. Yardi Advanced Budgeting & Forecasting makes it easier by automating the process and drawing data directly from Yardi Voyager. You get accurate forecasts informed by detailed property data, with the flexibility to easily change assumptions, speculative leases and construction projections.

Enhanced Budgeting

Shorten the budget preparation and review process by delivering comprehensive analysis and comparisons of future income and expenses. You can create detailed projections with greater accuracy and efficiency using data from actual tenant leases.

Automated Valuations

Receive reliable information on a timely basis, deliver better risk analysis and maximize returns with better-informed buy, hold or sell decisions. Advanced Budgeting & Forecasting automatically calculates future cash flows and determines net present values and internal rates of return at the property or portfolio level.

Forecast Manager

Forecast the future by connecting leasing, asset management and finance teams to the budgeting process.

- Allow leasing teams to quickly enter revenue forecasts via an intuitive user interface, tied directly to your Yardi Advanced Budgeting & Forecasting solution
- Bring active deals automatically from Deal Manager into the revenue forecast
- Filter units quickly by risk, deals, assumptions and reconfigurations
- Visualize revenue forecast unit by unit on an interactive timeline
- Create speculative leases quickly using pre-defined fields

Advanced Modeling

Gain clear visibility into current and potential assets with data drawn directly from Yardi Voyager. Advanced modeling capabilities create forecasting scenarios that deliver optimal investment assumptions for acquisitions and investors. Forecast and manage debt service using real-time assumptions for loan terms, mortgage interest rates and repayment schedules.
Sensitivity Analysis

Improve acquisition and disposition decisions with “what if” scenarios that combine real-time property, lease and investor data with market leasing assumptions and other variables. Quickly change hold timing, cap rates, inflation and other factors to immediately see their impact on assets, assess risk and capitalize on emerging opportunities.

Market Leasing Assumptions

Receive precise budget projections for rents, recoveries, charges, concessions and retail sales average figures. Forecast lease options with a revenue forecasting tool that enables quick updates of “at risk” space. You can update market rates, manage early terminations and access in-progress deals from Yardi Leasing Manager.

Model Properties

Create budgets based on model properties so you can make assumptions in the “budget world” without affecting “real world” unit and lease records.

Robust Reporting

Advanced commercial tenant analytic reports show revenue, lease inducements, market leasing assumptions and occupancy for a budget term. Quickly isolate variances by comparing budget versions.

Key Features

• Automated budget preparation and analysis using real-time property data
• Commercial model properties to safely make lease and space configuration changes
• Scenario analysis and comparison to predict revenue
• Vacancy, debt and rentable items for modeling
• Robust workflows and approval processes
• Unlimited budget versions and revisions with copy and consolidate capabilities
Key Benefits

- Increases tenant satisfaction and maximizes your cash flow
- Scans and digitizes paper checks and money orders in bulk
- Streamlines accounts payable with automated vendor payments
- Auto-transfers electronic deposits and payments to and from your bank account
- Eliminates manual errors and time-consuming bank trips
Payment Processing

Save time and maximize cash flow with a payment processing solution that eliminates bank runs, automates rent collection and simplifies vendor payments.
Increase tenant satisfaction and office efficiency with Yardi Payment Processing. Manage accounts receivable and accounts payable with one system that helps you streamline rent collection, cut operational costs and reduce processing errors. Make collecting rent and other fees easier with user-friendly payment options that eliminate bank runs for your staff. Your tenants can conveniently pay rent by check or online. Your staff can more quickly process incoming payments and outgoing payments to any vendor.

Yardi Payment Processing

Collect Online Payments
Offer paperless self-service lease payments with a recurring payment option using Yardi Online Payments. Tenants can log in at any time, view their account balances and pay directly from a bank account (ACH payment) or with a credit or debit card. Online payments are entered directly into Yardi Voyager, with automatic deposits and easy bank reconciliation. ACH payments are sent to your bank via EFT the next day. Credit and debit card payments are processed within 2-4 days.

Collect Check Payments
Eliminate trips to the bank, lost checks and manual keying errors while reducing NSF risk with Yardi CHECKscan. Scan bulk batches of personal, corporate, bill pay and cashier’s checks as well as money orders to greatly reduce processing time. Instantly create receipt batches in Voyager for all items and permanently store the image files — so you don’t need to make copies. Payments are transferred electronically to your financial institution the next day, optimizing your cash flow.
Pay Vendors and Owners*

Automate check writing and electronic vendor or owner payments with outgoing accounts payable. ACH payments are administered and distributed automatically, then instantly recorded in Voyager — speeding up processes, reducing manual errors and cutting down on paper waste. For vendors or owners that don’t accept electronic payments, we process, print and mail checks for you with all activity documented in Voyager, saving your team significant time and increasing productivity.

*Not currently available in Canada
Key Benefits

• Saves money by consolidating procurement spend into one platform
• Enables better decision-making with real-time Voyager data
• Provides powerful analytics to support continuous process improvement
• Increases efficiency and productivity with online and mobile workflows
• Eliminates interfacing with third-party systems
• Saves time and drastically reduces scanning, keying, printing and other manual tasks
• Gives vendors real-time transparency into their business with you
• Identifies potential at-risk vendors and develops strategies for managing them
Procure to Pay

Go paperless and reduce manual tasks with an end-to-end procure to pay solution. Gain real-time visibility into budgets and cash, increase efficiency with online catalogs and manage vendors more effectively.
Yardi Procure to Pay

Gain efficiency and productivity across the procure to pay process while attaining real-time transparency into your budgets and cash flow. The end-to-end Yardi Procure to Pay platform includes electronic invoice processing, online and mobile approvals for purchase orders and invoices, flexible purchasing catalogs and powerful vendor management tools.

Paperless Invoice Processing

Yardi PAYscan is a paperless, mobile-enabled invoice workflow platform that provides a 360-degree view of transactions from check to payable to invoice to purchase order, work order, job or contract. In addition, all budget and cash data is available in real-time. Use powerful analytics to drive continuous improvement across your procure to pay process.

Full-Service Invoice Processing

Reduce costs and increase efficiency even further with Yardi PAYscan Full Service, which lets vendors submit invoices to a secure, centralized location from which Yardi scans and enters the data for you. Yardi opens a dedicated PO Box and email address for your organization’s vendors to send their invoices. The invoices show in Voyager as invoice registers, ready for you to review, approve and process as payables.

Payments
- Yardi Bill Pay offers outsourced check printing and ACH payments
- Yardi Bill Pay credit card payments (both physical and virtual) create a frictionless payment process
- Complete the automation of the Procure to Pay cycle

Vendor Management
- VENDORCafé provides a web/mobile platform to help manage vendors more effectively
- VENDORCafé provides vendors real-time invoice and payment transparency
- VendorShield reduces risk and helps automate vendor screening and onboarding

Invoice Processing
- Yardi PAYscan offers web/mobile invoice processing
- Vendors submit invoices to Yardi for scanning and data entry
- Yardi Utility Expense Management drastically reduces time spent on utility invoices

Procurement
- Yardi Marketplace offers a web/mobile purchasing platform with powerful reporting
- Your suppliers and pricing reside in one procurement platform (Yardi catalogs also available)
- Deep integration allows electronic invoices to flow directly into PAYscan
Online Procurement

Yardi Marketplace is an online and mobile MRO shopping platform. Manage suppliers and leverage contracted pricing in one platform with off-the-shelf supplier relationships and catalogs, or create your own online catalogs. Yardi Marketplace works seamlessly with PAYscan to process invoices electronically. Get insightful reporting that gives you full control of your organization’s procurement activity.

Vendor Management

Empower your vendors to manage their business with you through the VENDORCafé online and mobile portal. Vendors can submit invoices and view invoice status, payment details, purchase orders and work orders in real time. Invoices submitted electronically through VENDORCafé import immediately into PAYscan. VendorShield simplifies management of Form W-9s, certificates of insurance, service contracts and other documents.

Simplified Bill Payments

Automate check writing and electronic vendor or owner payments with outgoing accounts payable. ACH payments are administered and distributed automatically, then instantly recorded in Voyager — speeding up processes, reducing manual errors and cutting down on paper waste. For vendors and owners that don’t accept electronic payments, we process, print and mail checks for you with all activity documented in Voyager, saving your team significant time and increasing productivity.

Key Features

- Centralized and powerful procurement platform
- Full audit trail capabilities to enforce compliance
- Open invoice monitoring and real-time view of cash
- SKU-level reporting to identify potential savings
- Electronic invoicing with Yardi Marketplace and VENDORCafé
- Full-service invoice importing and data entry to eliminate self-scanning
- Invoice matching to POs, contracts, WOs and jobs
- Simple management of W-9, COI, service contracts and other documents
- Integrated mobile app for online invoice approvals and review
Key Benefits

• Provides financial oversight with real-time cost, commitment and budget comparisons portfolio-wide

• Helps maintain tight cost control with automatic over-budget monitoring of every transaction

• Establishes governance with predefined workflows and rules consistent with Yardi Voyager

• Controls capital expenditure budget allocation process

• Includes extensive analytic reporting
Construction Management

Improve cost control, budget oversight and profitability for construction projects of every size and description—from capital expenditures and single-unit improvements to ground-up developments.
Yardi Job Cost

Keep projects on track with heightened cost control, complete budget oversight, and accurate forecasting and management of contracts, commitments and cash flow. Manage all types of construction projects including CAPEX, tenant improvements, space renovations and property development.

Construction and Development

Support projects at all phases, from pre-development to close-out, and for any duration. You can also develop financing plans and manage contract commitments, draws and progress billings from general contractors and subcontractors, and complete projected final and cash flow forecasting.

Job Costing and Budgeting

Your actual costs are automatically tracked and compared to the job budget. You get full visibility into all committed costs and change orders, with real-time job cost and general ledger updates as transactions are entered. Billing and draws can be created easily by actual costs incurred or percent complete, and charges generated automatically for recovering costs.

Comprehensive Reporting

Strengthen your reporting with comprehensive information related to budget amounts, revisions, commitments, change orders and amounts billed to date per category. Slice the data any way you like—by property, job, cost code or job attribute, among many other options.
Key Features

- Unlimited, user-defined budget cost categories with templates and models
- Full contract and change order, committed cost tracking and analysis
- Detailed, real-time recording of job costs and other actions across the entire construction lifecycle
- Multiple job cost summary and detail reports with drilldown to underlying transactions
- Custom, automated workflow approval for jobs, job budgets and revisions, contracts and change orders
- Multiple points of access for importing and exporting data
- Custom job cost analytics for creating your own reports
- Seamless integration with Voyager

Increased Flexibility

Apply user-defined workflow approvals for jobs, budgets, contracts and budget transactions. Simplify your work by hiding unused features and fields. Define your own fields for capturing pertinent data for historical purposes and reporting.
Key Benefits

• Provides immediate access to decision-makers, saving time
• Includes comprehensive property and market analytics that drive superior returns
• Targets borrowers early in the refinancing process
• Identifies value-add prospects based on defined criteria
• Delivers information on the right deals, not just those currently on the market
Market Data

Your source for originating, pre-underwriting and managing assets for profitable real estate loans and investments.
Yardi Matrix

Empower your business with the same information that leading real estate investors across the U.S. rely on to make better business decisions. Whether your principal interest is office, industrial, multifamily or self storage properties, we'll deliver the information you need to take control of property prospecting, underwriting and asset management processes. All parties gain value from Matrix—brokers, acquisition groups, foreign and domestic equity investors, debt investors, fee property managers and more.

Complete Property Research

Matrix does the heavy lifting—with extensive quality control—to compile property-level research that closes deals and drives value. We save you time by unveiling the true ownership of LLCs and senior level contacts, abstracting all senior loans, continuously updating sales data, obtaining verified tenants, lease rents, lease expirations and current listings and providing data-driven occupancy and forecasts.

Actionable Analysis

Get the data and models you need to analyze and feed your own financial models, so you do not waste time pursuing unproductive deals. Find that needle in the haystack—the right deal—with our unique asset rating system and loan maturity schedules. You’ll know the deal is in your strike zone before devoting your valuable and expensive time on it. You will be empowered to drive proposals that show that you know the owners and their properties—before picking up the phone.
Accurate Tracking

Track asset performance and the valuation of your properties—along with those of your competitors or potential partners. Our proprietary improvement and location ratings systems allow you to compare apples to apples—giving you fair and balanced performance information to act upon.

Market Insights

Whatever your role—acquisitions, refinance underwriting, valuations or sales—Matrix is your source for actionable information. Our renowned institutional research on markets, investment strategy and long-term trends is at your fingertips and included as a subscriber.
Key Benefits

• Reduces HVAC energy consumption while maintaining or improving tenant comfort
• Monitors electric meters in real time to improve building energy performance
• Lowers cost of managing utility payables
• Validates and pays utility bills
• Tracks sustainability data and goals
• Supports compliance for ENERGY STAR®, local laws, GRESB® and other standards
• Monitors utility-related budgets, revenues and expenses
• Benchmarks properties to find energy waste
• Offers smart and simple ways to reduce utility costs
• Provides competitive bids for power from carefully chosen suppliers
Energy

Manage energy intelligence and automate energy equipment to lower costs, reduce consumption and improve efficiency with solutions from one connected platform.
Yardi Pulse

Manage costs, consumption and efficiency with an energy program built for commercial real estate businesses that fits your sustainability goals and streamlines processes. Gain better control over your energy expenses—from your entire portfolio to a single building—leveraging the synergies between the Yardi Pulse Suite and your Yardi Voyager property management and accounting platform.

Leverage Energy Intelligence

Understand and document your utility consumption across properties, then leverage that data for analysis and insights with energy intelligence, a low investment solution. Increase visibility by comparing your portfolio’s real-time demand as it happens to consumption that your utility provider charges you with powerful Pulse dashboards.

Pulse Real-Time Metering
Improve building energy performance by monitoring electric meters in real time for better visibility and decision making.

Pulse Dashboards
Stay on top of your portfolio’s energy consumption with a simple web-based system that provides energy and utility dashboards to track utility cost, consumption and emissions. The system intelligently compares buildings for actionable insights and sustainability benchmarking in one platform.

Utility Expense Management
Save money and time with a paperless solution for managing your utility payables and energy data. Yardi Utility Expense Management receives, validates, enters into your general ledger and (optionally) pays your utility bills. Automating payables includes invoice tracking, exception auditing and faster processing to ensure on-time payments, which drastically reduces late fees and expensive errors. All utility cost and consumption data is made available for analysis and benchmarking.

Expand Sustainability

Our Certified Energy Managers®, engineers and MBAs have broad experience in rates, policy and analysis as well as hands-on knowledge of mechanical utility systems. We can identify conservation opportunities that meet your business initiatives and measure results with property benchmarking following industry-approved protocols, including ENERGY STAR® scores, reporting and certifications.
Utility Billing
Monitor and bill your tenants for their energy and water consumption with Yardi’s full-service commercial Yardi Utility Billing offering. Accurate consumption measurement means timely generation of tenant bills, full analysis and forecasting of utility revenues and problem alerts that cut waste.

PowerShopping
Protect against energy cost volatility and achieve budget certainty with Yardi’s energy contract negotiation service. Yardi PowerShopping secures reliable energy at competitive prices for clients in deregulated states. PowerShopping does all the upfront work—market research, requests for pricing, supplier bid price analysis, legal review of contracts—with a deep understanding of all energy markets.

Optimize Building Energy Performance
Yardi Pulse Suite includes energy automation solutions designed to optimize HVAC equipment, reduce costs and improve occupant comfort for your entire portfolio and any building size. With single sign-on for easy navigation, you can manage utility invoice data, real-time load profiles, HVAC faults and trending, thermostat settings and HVAC optimization in one app.

Pulse Fault Detection & Diagnostics
Get HVAC monitoring, trending and actionable alerts to detect and resolve problems before they cost you money or impact tenant comfort.

Pulse Central Control
Monitor, schedule and control your HVAC systems and thermostats with multi-site remote access.

Pulse Active EE
Optimize your existing HVAC system and improve occupant comfort with intelligent load-based algorithms and artificial intelligence that actively adjusts setpoints every 30 seconds.

Pulse Occupant Engagement Dashboard
Create awareness and promote energy conservation by giving tenants and stakeholders visibility into consumption.

Key Features
• Utility payables created in Voyager automatically
• Reporting for ENERGY STAR® and GRESB®
• Utility budgeting support
• Centralized online access to bills, budgets, supply contracts and more
• Optimized HVAC equipment efficiency
• Real-time monitoring of utility electric meters
• Fault detection and diagnostics of HVAC systems
• Precise, automated demand response
• Multi-site remote access to monitor, schedule and control HVAC systems and thermostats
• Occupant energy profiles to compare usage, manage energy competitions and promote sustainability
• Submetering and automated tenant billing
• Comprehensive energy procurement support
Key Benefits

- Speeds up employee onboarding with courses that blend Yardi software training and custom policies and procedures
- Reduces training admin costs with efficient automated workflows and data import/export
- Consolidates training program admin tasks to a single platform
- Automates recertification processes and compliance reporting
- Improves employee performance by encouraging staff to explore new skills in safe, Yardi practice areas
- Builds a robust culture of learning with achievements, peer discussions and assignment feedback tools
- Achieves better accountability and knowledge retention over traditional training
- Boosts employee confidence with relevant and effective training resources that improve job efficiency
Online Learning
Create a personalized learning experience that maximizes knowledge retention and job satisfaction.
Yardi eLearning

Get more value from your training budget. Yardi eLearning eclipses traditional staff training programs with on-demand digital content designed to improve job performance, reduce staff turnover and eliminate outdated teaching methods.

Get simplified access

Provide your employees with a role-specific learning plan that includes self-paced courses, instructor-led events and tests. Set delays on the learning steps to automatically unlock new content as the previous content is completed, or use timed delays to trickle content out over time. Learners can self-enroll in training from their custom course and event catalogs that present appropriate content based on job role or group assignment.

Automate user management

Save time and avoid input errors with automated data transfers. Yardi eLearning supports data transfer to and from third-party learning management, talent management and HR systems. Administrators can set up automated, regularly scheduled data transfers that streamline employee onboarding, reduce training administrative costs and ensure accurate reporting by consolidating students’ comprehensive training activities.

Customize your catalog

Choose from a comprehensive catalog of over 750 courses covering compliance, safety, professional development and more. Each course is fully customizable to individual company needs. Approximately 80% of the courses cover Yardi products and services. These Yardi-specific courses fit the learning needs of beginners to advanced learners.

Increase staff compliance

Keep staff informed about the latest federal legislation and prepared to comply with changing regulations. Yardi eLearning maintains courses that not only explain the laws but provide relevant examples to help your team members understand areas of risk they must be aware of based on their role in the organization. Current offerings include Federal Fair Housing education (general and maintenance technician-specific) and harassment training (employee and supervisor versions). Flexible bilingual Spanish versions allow your team members to select their own language preference while you issue and monitor completion on a single course.

Craft learning plans based on role

Build comprehensive training programs, targeted by job role, that deliver learning challenges to your employees steadily over time. Yardi eLearning Learning Plans are a quick, strategic way to assign users the exact learning materials necessary for their job, next promotion or to gain additional knowledge or skills. Plans can incorporate courses, online events and other learning opportunities scheduled strategically as employees progress.

Make live events more effective

Gain centralized management tools for classroom, webinar and in-person events. Trainers can schedule single or recurring events, interface with integrated Citrix®, Cisco® and Adobe® web conference tools, and import free Yardi webinars.
Integration helps trainers eliminate costly data entry errors, organize their calendar of events, manage attendance and report on student attendance. Yardi eLearning makes it easy to distribute training materials and set up pre- and post-event surveys to measure effectiveness of live webinar events.

Organize employee resources

Make it easy for Yardi eLearning users to find exactly what they need to make training more successful and their work more efficient. Yardi eLearning administrators can use resource containers to curate relevant content from many different sources and deliver it to specific groups of users who need it most.

Sign documents digitally

eSign is a time-saving and paperless feature built into your Yardi eLearning university that allows you to upload your organization’s PDFs and build a digital library of documents that can be signed electronically to acknowledge policy statements or certify completion of goals and tasks. With eSign, users can insert custom signature files, select from included templates or create one from scratch on a tablet. eSign also has text fields which enable users to insert comments into the form. Eliminate the need to download, print, sign, scan, upload or email forms. Get it all done online quickly and with a convenient, digital audit trail.

Collect employee input

Create custom surveys and assess response data without leaving Yardi eLearning. Gain faster access to survey responses and analyze data easier by avoiding import/export from third-party survey software. Collect company-wide feedback by sending surveys via platform email or in a resource container. Gain learner input by including surveys in your courses and event descriptions to measure the effectiveness of the learning materials, gauge attendee learning goals and experience, and follow live events to evaluate instructor performance and classroom feedback.

Use SCORM courses in Yardi eLearning

Yardi eLearning supports SCORM courses created in other authoring platforms, or those purchased from third-party vendors. Upload your external SCORM courses as a page with a course and issue it as a step in learning plans. Customize the SCORM-based course using Yardi eLearning tools to add custom pages before and after the SCORM page to embellish the off-the-shelf content with your custom instructions, policies, tests, eSign documents and assignments before and after the SCORM course.

Key Features

- Centralized solution for online courses, live training events and organizational resources
- Integration with a variety of identity providers and webinar, video hosting and help desk software providers
- Manual and scheduled reporting to track learner progress and organizational trends
- Role- or region-based course deployment
- Extensive curriculum developed and maintained by Yardi and industry experts
- Intuitive authoring tools for quick course creation and rollout to learners
- Support for multimedia formats including SCORM, HTML, documents, images and videos
- Mobile access through all major handheld devices and web browsers
- Training and consultation from experienced Yardi eLearning experts
- Easy-access search function for staff to find company-wide resources
Key Benefits

- Ensures seamless integration of new releases and updates
- Features rapid solution implementation and deployment
- Includes hardware and network setup and performance monitoring
- Provides 24/7 accessibility
- Offers scalability and protection against outdated technology
- Lowers overall cost of implementation and maintenance
- Delivers up-to-the-minute reporting for all properties in your portfolio
- Includes access to expert technical support staff from an award-winning cloud solutions provider
Software as a Service

Rapid, best practice-based deployment without the worry of application management or IT maintenance.
Yardi Software as a Service (SaaS)

Yardi Cloud Services utilizes more than 10 data centers around the world to enable faster, best practice-based deployment of our latest platforms. Taking away the worry of managing applications and maintaining IT networks, Yardi SaaS allows you to optimize your Yardi platform with painless upgrades and delivers a preconfigured setup, secure IT infrastructure, 24/7 accessibility and full business continuity—all while reducing your overhead and capital costs. Yardi SaaS deployments include:

SaaS

With Yardi SaaS, clients share the application but have their own secure database. Yardi manages versions, relieving clients of performing upgrades themselves. Each SaaS client retains the ability to tailor and customize program features to meet their individual needs.

SaaS Select

Yardi SaaS Select clients have their own installation of the application and their own secure database which offers each client the ability to control their own versions and upgrades. Clients can choose if and when to upgrade and adopt new releases.
Full Compliance

Our hosting services are fully SSAE 18 (formerly SSAE 16) compliant. We undergo third-party audits and receive the SSAE 18 Service Auditor’s Report twice a year.

Redundancy and Uptime

• Guaranteed business continuity and disaster recovery
• Nightly backups and offsite transfer of all data
• Seismically braced server racks
• State-of-the-art fire suppression system
• Weekly server maintenance
• Around-the-clock monitoring of server operation
• Battery backups and a fully automatic fail-over standby generator to ensure uninterrupted performance in the event of a power failure

Award-Winning Provider

Power your business with the real estate industry’s most trusted cloud provider. Yardi is part of the Forbes Cloud 100, the definitive list of the top 100 private cloud companies in the world, developed in partnership with Bessemer Venture Partners.

Key Features
