

Yardi® Elevate

FLOORPLAN MANAGER

Comprehensive floorplan management platform for CRE

Simplify real estate management with a single solution to integrate and quantify space, occupancy and performance data.

Leverage color-coded and layered floorplans, charts, reports and other tools that support decision-making.

ENHANCED FLOORPLANS

Seamlessly integrate your floorplans with Yardi Voyager data and visualize all CAD file layers.

ANNOTATE & CUSTOMIZE

Support external and internal floorplan use cases with customized unit labels, metrics, and tenant logos.

SPECULATE & LEASE

Create “what if” scenarios and sharable leasing models with version control and effective date.

FEATURES

FLOORPLAN MANAGER

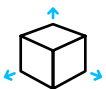

LEASE FASTER WITH INTERACTIVE FLOORPLANS

Superpower your leasing and asset management teams with a complete solution for speculative leasing scenarios and hypothetical demisals of space. Easily create visually stunning leasing models that can be shared internally and with prospects and tenants.

UNLOCK FLOORPLAN VISIBILITY

Simplify the floorplan management process with tools for import and export of CAD files. Easily manage and visualize all CAD layers, draw unit boundaries and demise space. Easily edit, create, approve and activate new floorplan versions.

CALCULATE ACCURATELY AND QUICKLY

Process complex area calculations with a click when demising space. Quickly process area spreadsheets according to BOMA & REBNY standards. Leverage the Voyager integration to compare and report drawing data against Voyager areas.

EXPORT AND SYNC ON DEMAND

Enable cross-department file management and version control. Export on demand to PDF, DXF, CAD, SVG or PNG to support asset management, marketing, leasing and tenant client's needs. Automate exports and syncs with SharePoint or other client-specific locations.
