

Yardi® Elevate

FLOORPLAN MANAGER

Comprehensive floor plan management platform for CRE

Simplify real estate management with a single solution to integrate and quantify space, occupancy and performance data.

Leverage color-coded and layered floor plans, charts, reports and other tools that support decision-making.

ENHANCED FLOOR PLANS

Seamlessly integrate your floor plans with Yardi Voyager data and visualize all CAD file layers.

ANNOTATE & CUSTOMIZE

Support external and internal floor plan use cases with customized unit labels, metrics, and tenant logos.

SPECULATE & LEASE

Create “what if” scenarios and sharable leasing models with version control and effective date.

FEATURES

FLOORPLAN MANAGER

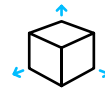

INTERACTIVE FLOOR PLANS

Create visually stunning models showing speculative leasing scenarios and hypothetical demisals of space that can be shared internally and with prospects and tenants.

CONSOLIDATED VISUALIZATION

Manage and visualize all CAD layers, draw unit boundaries and demise space. Easily edit, create, approve and activate new floor plan versions.

ACCURATE CALCULATIONS

Quickly process area spreadsheets according to BOMA and REBNY standards. Compare and report drawing data against Voyager areas.

HASSLE-FREE SHARING

Export in PDF, DXF, CAD, SVG or PNG formats to support asset management, marketing, leasing and tenant needs. Automate exports and syncs with SharePoint or other client-specific locations.

IMPLEMENTATION ASSISTANCE

Leverage Floorplan Manager Services to assist with initial onboarding and upload of CAD files. Ongoing support ensures redemissions and remeasurements are accurately updated in unit mapping.
