

CommercialEdge

COMMERCIALEDGE LEGAL

Dynamic software for seamless legal operations

Streamline the deal-making process with automatic lease generation, customizable approval flows and a secure electronic signature function. Save time, increase transparency and enhance collaboration across your teams.

REDUCE LEGAL COSTS

Minimize legal costs by automatically generating lease agreements with minimal assistance from the Legal department or outside firms.

ACCELERATE LEASE CREATION

Leverage our expertise and support to create sophisticated deal templates and generate complex leases with high accuracy at the click of a button.

CUSTOMIZE APPROVAL FLOWS

Ensure real-time visibility for your teams by enabling users to track and compare revisions with dedicated activity feeds and centralized document storage.

FEATURES

COMMERCIALEDGE LEGAL

AUTOMATIC LEASE GENERATION

Generate accurate lease documents in minutes by leveraging deal terms, clause and option libraries, lease document templates and sophisticated formatting capabilities directly within the application.

EASY WORKFLOW TRACKING

Ensure complete transparency with approval process visibility and easy workflow tracking. Leverage built-in redlining and version comparison reviews with dedicated activity feeds at the document level.

QUICK & SIMPLE E-SIGNING

Sign documents effortlessly using a built-in, secure electronic signature tool that syncs with Yardi Voyager. Automatically mark deals as executed as soon as they are signed and notify relevant team members.

SEAMLESS IMPLEMENTATION & INTEGRATION

Rely on the CommercialEdge support team to turn your sample leases into lease templates and get started with minimal effort. Eliminate rekeying and avoid duplicate entries through seamless Deal Manager integration and Voyager syncs.
