

Yardi® Elevate

FACILITY MANAGER

Automate maintenance
& work order
management in one
transparent platform

Improve building performance and tenant experience by automating preventive maintenance, property inspections and work order management. Connect tenants, technicians and vendors on a fully integrated platform.

AUTOMATE SERVICE REQUESTS

Ensure SLA compliance, reduce manual tasks and improve communication via email, SMS and tenant surveys.

EXTEND EQUIPMENT LIFE

Protect assets with proactive maintenance routines that prevent downtime, reduce repair costs and keep equipment performing efficiently.

STREAMLINE INSPECTIONS

Control inspection processes with templates that keep routines consistent and scalable. Generate inspections on demand or set them to recur automatically.

FEATURES

FACILITY MANAGER

MOBILE WORKFORCE

Connect site maintenance teams and managers using role-based mobile apps that also work offline.

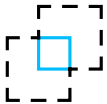

SMART SCHEDULING

Eliminate manual intervention with a fully integrated system to automate key property maintenance functions.

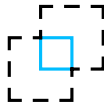

PROACTIVE MANAGEMENT

Save time and money by scheduling recurring equipment maintenance routines that improve upkeep and reduce downtime.

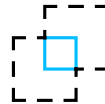

YARDI PULSE INTEGRATION

Auto-generate equipment work orders and service requests by connecting with Pulse Fault Detection.

VENDORCAFE INTEGRATION

Enable vendors to manage bidding and estimates, streamline communications and automatically respond to service requests.

COMMERCIALCAFE INTEGRATION

Increase convenience for tenants with online work orders and cost estimates. Track tenant responsible preventive maintenance and manage by exception.
