

Yardi® Elevate

FORECAST MANAGER

Forecast confidently and improve budgeting by connecting leasing, asset management and finance teams

Make budgeting and forecasting faster and more accurate with a simplified, streamlined solution.

ELIMINATE REDUNDANCY

Benefit from a centralized budgeting system that replaces error-prone spreadsheets.

IMPROVE ACCURACY

Leverage real-time leasing and expense information to streamline the reforecasting process.

INCREASE VISIBILITY

Gain impactful insights on portfolio and property health by analyzing leasing, operating and capital expenses.

FEATURES

FORECAST MANAGER

ALIGN TEAMS

Increase accuracy by inviting broader leasing, finance and asset teams into the budgeting and forecasting process. Assign team members to custom workflows with automation to send emails and run reports.

SCALABLE FUNCTIONALITY

Use bulk processes to efficiently impact many records at once including Market Profiles, Bulk Lease Renewals, Space Market Rates and Workflow Management.

OPEX BUDGETING

View detailed historical data to quickly create accurate future year projections. Import and export large sets of expenses and notes.

SPACE-LEVEL BUDGETING

Simplify market rent management and space-level budgets by grouping similar spaces, properties and regions.

REVENUE FORECAST DASHBOARD

Filter and identify units by risk and make accurate speculations to streamline the revenue forecasting process.

INTEGRATED SYSTEM

Pair with Deal Manager and Construction Manager to quickly adapt to unexpected market and revenue changes.

Leverage all the products in the Yardi Elevate Suite to gain in-depth operational data, improve revenue forecasting and enhance asset management.
