

## FAULT DETECTION

---

Detect and prevent  
HVAC system  
device issues

Get HVAC monitoring and alerts to resolve issues before they cost you money or impact comfort.

### **SAVE MONEY**

Generate an average HVAC energy savings of 5-10%.

### **MONITOR EQUIPMENT PERFORMANCE**

Protect your HVAC investments with automated notifications.

### **GAIN DEEPER INSIGHTS**

Get granular, equipment-level data on properties throughout your portfolio.

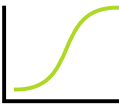

# FEATURES

## FAULT DETECTION

### AUTOMATED FAULTS

Have notifications sent to building engineers, property managers and other personnel. Create your own fault definitions to meet site needs.

### TRENDING ENGINE

Use our powerful engine to analyze flexible graphs and diagnose issues.

### KPI DASHBOARDS

Increase visibility for portfolio managers, engineers and energy managers.

### CONTINUOUS MONITORING

Conduct continuous HVAC system scans to identify and prioritize faults early.

### INTEGRATE WITH FACILITY MANAGER

Utilize Facility Manager integration to automatically create work orders from maintenance faults.

### COMPLETE ENERGY SOLUTION

Leverage all products in the Energy Suite to implement a consolidated energy strategy across your portfolio.
