

ResidentShield Protection Plan

Reduced risk and peace of mind - for you and your residents.

Renters insurance reduces your property risk from resident-caused loss, and offers your residents valuable protection. ResidentShield Protection Plan* features two choices — ResidentShield HO4 and ResidentShield Master Policy Program — you decide which program or combination of solutions is best for your specific risk transfer program. For both programs, it is easy for residents to enroll, and we will provide your leasing staff with training and marketing materials. Program progress reports are readily available to your managers to track success. And, the program includes customer service for policyholders, so your staff is "hands off."

ResidentShield Master Policy Program Guaranteed protection with 100% compliance.

It's easier than ever to achieve 100% renters insurance compliance. Master Policy Program is an insurance option that provides the simplest and most affordable way for residents to fulfill an insurance requirement, with the property manager listed as 'primary insured' and the resident as 'additional insured.' It protects the owner of the community against liability claims resulting from resident-caused damages, with optional coverage amounts ranging from \$25,000 - \$100,000 per occurrence.

Master Policy Program can be used as a standalone or as a supplement to the ResidentShield HO4 program as a 'forced placed' alternative. Resident enrollments are completed within the Insurance Dashboard of Yardi Voyager, creating an additional charge on residents' monthly billing statements. In addition, property managers may be eligible to earn monthly convenience fees in exchange for ongoing program administration.

Master Policy Program coverage is automated, so you and your residents never need to worry about lapses or renewals. This also means your leasing agents can focus on leasing — not on tracking policies or processing paperwork. And for owners, this provides total peace of mind that their assets are 100% protected.
