YARDI SOFTWARE AS A SERVICE

Focus more on core business operations by letting us manage your IT network

REDUCE COST
Eliminate the expense and burden of purchasing and managing IT applications and networks.

ENHANCE COMPETITIVENESS
Get up and running fast on our latest platforms with best practice-based deployment.

ENSURE COMPLIANCE
Protect your business with SSAE 18-compliant hosting services including regular backups, weekly server maintenance and enhanced data center security.

Adopt new applications faster, reduce system costs and ensure full business continuity.

YARDI SOFTWARE AS A SERVICE

OPTIMIZED PLATFORM
Maximize your software's value with seamless upgrades, a preconfigured setup and 24/7 accessibility.

GUARANTEED CONTINUITY
Rest easy knowing that your data is protected by regular backups, around-the-clock server monitoring, seismically braced server racks and other physical security measures.

MULTIPLE OPTIONS
Choose from three secure database deployments: SaaS, with a shared application; SaaS Select, with your own application installation; or Private Cloud, which includes a dedicated virtual server, database and application installation.

AWARD-WINNING PROVIDER
Benefit from the experience of a six-time Forbes Cloud 100 company.
