How technology and teamwork help protect your residents

Prescription medications add up.

Technology offers a path forward.

eMAR systems show results.

We support two primary接口 setup methodologies:

1. Pre-built interfaces
2. Custom interfaces

Below the implementation:

You may need to:

- Configure your eMAR
- Define workflows
- ConfigureLook.

During the implementation:

It’s important to have ongoing support:

- PAs
- On-site training
- Online training
