

ScreeningWorks Pro

Make screening a seamless part of your Yardi Voyager leasing workflow and leverage it with your operating data to ensure you consistently select and retain low-risk residents.

ScreeningWorks Pro

ScreeningWorks Pro* is a proven online resident screening system that delivers comprehensive reports so property managers can make smart rental decisions and minimize risk. You get credit reports from the three major bureaus, plus terrorist, drug trafficker, sex offender and Social Security fraud screening, rental payment history records and eviction and landlord/tenant civil court records. Using the most reliable data available, our solution eliminates guesswork and provides automated recommendations tailored for your properties to help you select quality residents. The system is customizable for many multifamily property types including conventional, subsidized and student housing.

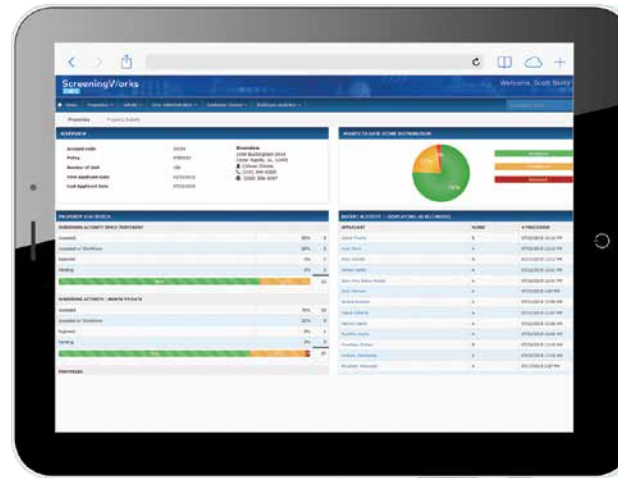

Confident Screening

Our solution delivers a reliable screening process to provide your rental staff with clear, consistent direction that supports your business rules. Screening workflow automation provides built-in control and cost savings and enables your staff to work more efficiently. Decision criteria are tailored for each property in your portfolio, so applicants will always be screened uniformly and according to your objectives.

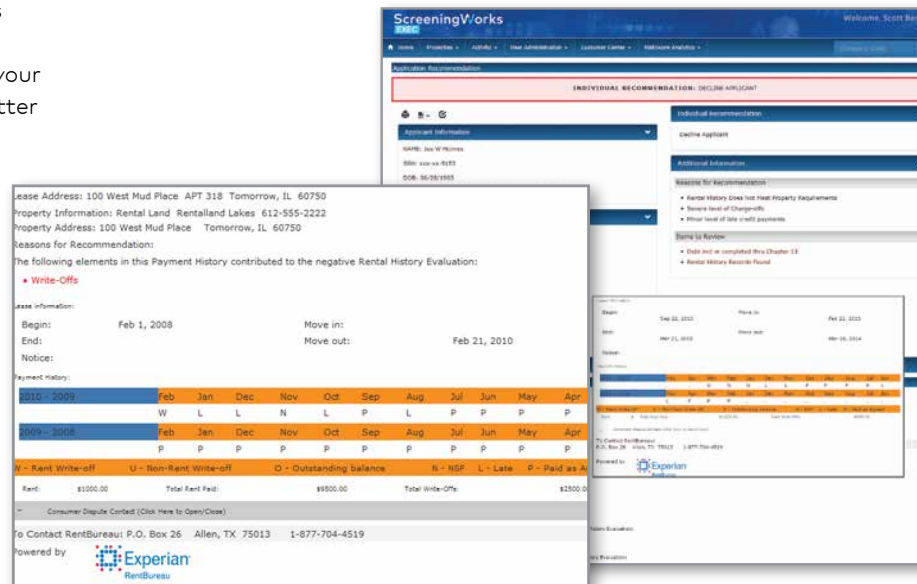

Experian RentBureau Advantage

Gain a competitive advantage by adding Experian® RentBureau® data to your screening program. Experian RentBureau is the largest and most widely used database of rental payment information and currently includes data on more than 18 million residents nationwide. With ScreeningWorks Pro, you can leverage this data to factor applicants' rental payment history as part of your resident screening decision, which will allow you to accept better quality residents who have a history of paying rent on time.
