Notice to Yardi Clients

In response to our Covid 19 management and improving global outlook, Yardi is taking the following steps to ensure the health and well-being of our employees as well as ensuring that we will continue to provide the necessary support and services for our clients as we plan for post-coronavirus operations.

1. We are closely monitoring health guidance from national and international organizations such as the Centers for Disease Control and Prevention (CDC) and the World Health Organization (WHO).
2. Yardi has successfully transitioned its global workforce to a Hybrid model. Our internal reports confirm this transition has had little or no impact on client support and services.
3. Following our successful digital conferences over the last 2 years, in 2022 we plan to host YASC in person in San Diego and other locations globally. Information about our YASC Conferences is available at <https://yardi.com/yasc/>
4. We continue to monitor our business continuity plans relating to our services, offices and third-party providers to ensure that all critical systems and services will continue to function properly.

We will continue to closely follow the progress of Covid 19 as it unfolds and will do everything we can to minimize the impact on our clients and our employees.
