

Yardi® Elevate

VALUATION MANAGER

Perform asset valuations for commercial properties on the Yardi platform

Mitigate risk with timely, accurate asset valuations based on lease and budget data in Yardi Voyager and Forecast Manager. Gain peace of mind knowing your valuations are founded on industry-standard assumptions, calculation methodologies and business rules. Benefit from the efficiency of executing all valuation operations within a single system.

STREAMLINE THE PROCESS

Easily and accurately create valuations for assets managed in Yardi Voyager.

SAVE TIME & EFFORT

Eliminate inefficient duplicate data entry and data transfers.

ENHANCE ACCURACY

Leverage current information from other Yardi Elevate products including using the latest leasing terms from the lease pipeline, and up to date changes to existing capital/tenant improvement and development projects.

FEATURES

YARDI VALUATION MANAGER

EASE OF USE

Work efficiently with an intuitive valuation dashboard and easy-to-read printable summary reports.

DATA AVAILABILITY

Effortlessly create valuations using current budget assumptions, and up to the minute leasing and development project information.

ACCURACY

Leverage actual in place lease terms from the core system of record used to bill your tenants.

SYSTEM INTEGRATION EFFICIENCY

Eliminate the need for transferring data to disparate systems or manually updating spreadsheets with a single connected solution.

MODEL CHANGE

Quickly and easily analyze various non-lease level assumptions without effecting existing valuations.

Leverage the complete Yardi Elevate Suite to gain in-depth operational data, streamline revenue and expense forecasting and enhance portfolio management.
