<b>Processor</b>	Intel Dual Core or greater, Intel Pentium, AMD, or compatible, 1 GHz or faster (Mobile platforms: not applicable)
<b>RAM</b>	2 GB (Mobile platforms: not applicable)
<b>Software applications and components</b>	Mozilla Firefox or Google Chrome or Apple Safari (Apple hardware only)  For Microsoft Windows: Microsoft Edge <sup>4</sup> ; or Microsoft Internet Explorer 11 <sup>3,5,6</sup> ; or Microsoft Internet Explorer 10 <sup>5,6,7</sup> - with latest MS service pack and security updates Microsoft Office 365, 2016, 2013, 2010, or 2007 - with latest MS service pack/security updates (as applicable) Microsoft .NET Framework v4.5 and v2.0 (for Yardi yCheck, PAYscan, and CHECKscan operations) Yardi yCheck (if printing checks from workstation) Adobe PDF Reader
<b>Screen resolution</b>	1024 x 768 or higher (minimum) (Mobile platforms: not applicable)

- The Yardi yCheck application will install and operate only on Microsoft Windows platforms<sup>2</sup>.
- The following applications will install and operate only on Microsoft Windows platforms with Microsoft Internet Explorer, except as noted<sup>2</sup>: Yardi CHECKscan and Yardi PAYscan viewer.
- The client hardware and software specifications listed in this document are for releases of Yardi Voyager 7S (including the associated Yardi SaaS and SaaS Select client services) that were available at the time of this publication. As newer system versions are introduced and services upgraded, Yardi reserves the right to update and modify these recommendations.
- Hardware, memory, and storage requirements can vary greatly, depending on the number of users, network applications, hard disk sizes, remote connection protocol and type, device type, and other issues. Your organization should regularly review company and user hardware and software resources and compare them to current system requirements.
- Clients connect to Voyager 7S through the Internet. Good security practices for remote-access communications require the use of standard security hardware and software, such as firewalls and utilities for protection against computer viruses and spyware. Security configuration for hardware and applications is the responsibility of your organization and users.
- For more information about computer and peripheral requirements and resources in your organization, contact your system administrator or computer consultant. For additional information about Voyager 7S client and Yardi SaaS and SaaS Select client system requirements, contact Yardi technical support.

<sup>1</sup> System requirements presented herein are accurate and reliable to the best of Yardi System's knowledge and belief but are not guaranteed to be so. These requirements are subject to change without notice. Nothing herein is to be construed as recommending any practice or any product in violation of any patent or in violation of any law or regulation. It is the user's responsibility to determine the suitability of any equipment and/or procedure for a specific purpose and to use such equipment and/or procedure as may be necessary and pertinent to the user's organization and business practices.

<sup>2</sup> Microsoft Windows 10 and Microsoft Edge are not yet qualified for use with CHECKscan and the .NET version of Yardi yCheck.

<sup>3</sup> Microsoft Windows 8.1 and Internet Explorer 11 are not yet qualified for use with the .NET version of Yardi yCheck.

<sup>4</sup> Microsoft Edge is only qualified for Microsoft Windows 10.

<sup>5</sup> For Windows 8.1 and 8 with Internet Explorer 11 or 10, use Desktop browser mode, not Modern/Metro UI browser mode.

<sup>6</sup> For Microsoft Internet Explorer 11 and 10, Voyager 7S requires Compatibility View turned off.

<sup>7</sup> Although Voyager 7S is qualified for Microsoft Internet Explorer 10, Microsoft ended support and no longer provides security updates for Microsoft Internet Explorer 10 as of January 12th, 2016. For more information, see <https://www.microsoft.com/en-us/WindowsForBusiness/End-of-IE-support>.
