

VOYAGER RESIDENTIAL

Simplify property management

Manage multifamily properties, residents and finances in one platform. With a sleek user interface, embedded AI support and powerful automation, Voyager gives you control of day-to-day operations while guiding users through tasks in real time.

STREAMLINE ACCOUNTING

Handle AR/AP, oversee budgets and process batches with a proven general ledger.

ENHANCE PRODUCTIVITY

Drive efficient workflows with faster automation and in-app intelligence that reduces manual steps.

INCREASE VISIBILITY

Gain transparency with centralized data that supports smarter decisions across your portfolio.

VOYAGER RESIDENTIAL

INTUITIVE INTERFACE

Reduce employee onboarding time with a user-friendly system that automates tasks and provides in-context guidance directly within Voyager.

PROPERTY MANAGEMENT

Manage move-ins, move-outs, make-readies, communications, work orders and assets in one system.

CENTRALIZED TASKS

Oversee all tasks including AR, AP, GL and basic maintenance, while efficiently communicating with prospects and residents.

ROLE-BASED DASHBOARDS

Work with task-focused dashboards built with predefined roles for accounting, community managers, leasing agents, maintenance and lease administration.

IN-APP SUPPORT

Resolve questions and complete tasks faster with Virtuoso Support, built-in AI that delivers immediate, contextual assistance without disrupting workflows.

REAL-TIME ANALYTICS

Monitor your portfolio's performance with analytic reporting and custom report building.

BEST IN CLASS AND EASY TO USE

Unify multifamily operations on an enterprise platform that reduces friction, improves visibility and supports your long-term growth. Lead with confidence with a complete accounting system that meets applicable GAP and IFRS requirements.
