

Yardi and Kno2 Partner to Streamline Clinical Information Exchange

EHR Health Records Exchange

Sending and receiving between communities and providers has never been easier in EHR. Using Yardi EHR and Kno2, you can:

- With a Kno2 fax subscription, digitize faxes between communities and providers.
- Query providers and Health Care Organizations via CareQuality (EHR Version 7.14 and greater).
- Clinical move-ins become more efficient. Yardi EHR move-in data can be populated from the 2.3 million CareQuality provider endpoints.
- Securely exchange digital PHI documents, such as CCD or Discharge Summaries, with qualified 3rd-parties directly from EHR.
- As an organization, coordinate data with value-based care and accountable care organizations.
