DATA CONNECT

Visualize your data, your way

Customize your data like never before. This solution offers a secure feed from Voyager to Microsoft® Power BI, enabling infinite customizations and incorporation of third-party sources.

COLLECT & CONNECT

Configure data from sources you use every day.

WORK SMARTER

Understand patterns and use visualization tools to drive better, data-driven decisions.

ENSURE ACCURACY

Aggregate data from multiple Voyager databases and other sources to establish one source of truth.

DATA CONNECT

ENHANCED CONNECTION

Use your existing Microsoft® Azure environment and Power BI to collect data from Yardi and additional sources.
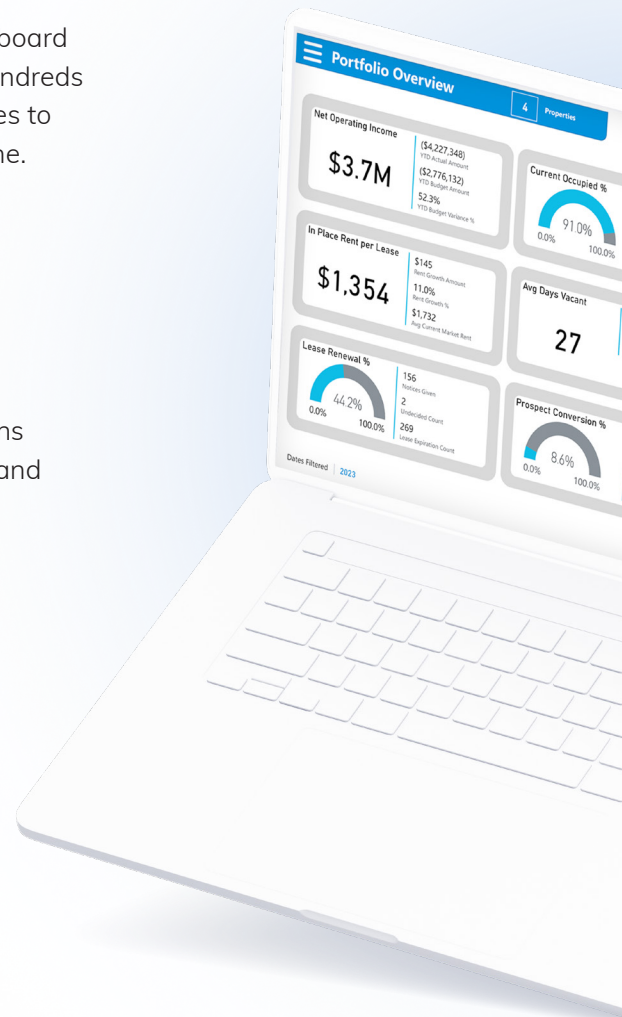

INSTANT DASHBOARDS

Receive an extensive dashboard "starter pack," including hundreds of dimensions and measures to collect insights from day one.

POWERFUL REPORTING

Create rich reports with compelling visuals that display complete views of your data.

DATA REFRESH

Remove manual connections by automating data feeds and refresh schedules.

DON'T JUST COLLECT DATA, CONNECT IT

Yardi Data Connect unlocks a new level of data connection, paving the way for smarter decisions within your organization.
