

Yardi Genesis2 Upgrade

FREQUENTLY ASKED QUESTIONS

What are the next steps?

Our sales team will reach out to you within the next few weeks to discuss the changes, timelines and provide you with the information you need to move ahead with the upgrade.

What Yardi software solutions are available for me to upgrade to?

You have the option of choosing two products: [Yardi Breeze Premier](#) or [Yardi Voyager](#).

Available Solutions

YARDI BREEZE PREMIER

A refreshingly simple property management system that works for residential, commercial, condo and mixed portfolios. You can get started using Breeze Premier with no advanced training or experience.

YARDI VOYAGER

A comprehensive ERP system for real estate operators with unique and dynamic requirements. It creates a fully integrated central database of all property types — residential, commercial, condo, social housing and mixed portfolios— with the ability to add advanced products and services and leverage big data.

Yardi Genesis2 Upgrade

FREQUENTLY ASKED QUESTIONS

How easy is it for me to move to a new Yardi product?

Yardi's technical support teams will reach out to you, guide you along the way and help you plan your migration to your new Yardi solution.

What about my data?

Many companies choose a fresh start with a new system, while others opt for data conversion. If you opt for data conversion, Yardi will migrate your data for you. Our team of experts have the tools and the experience to migrate Genesis2 data to either Breeze Premier or Voyager.

At Yardi, we are aware of the crucial role our technology plays at your organization and we are committed to providing outstanding solutions and services to all of our clients throughout every stage of their corporate growth. Rest assured that this upgrade will have a positive effect on your company and we look forward to supporting your team in achieving your business goals through this upgrade and beyond.
