

## Yardi INSIGHT 3.1 System Requirements

Recommended and minimum hardware and software specifications<sup>1</sup> for a Yardi INSIGHT 3.1 system.  
Yardi Systems, Inc. February 2013.

Hardware and software installations and version updates for all listed components require careful planning.  
Contact Yardi technical support before proceeding.

### BUSINESSOBJECTS ENTERPRISE XI R3.1 SERVER SPECIFICATIONS

<b>Operating system</b>	Microsoft Windows Server 2008 SP2 (recommended); or Microsoft Windows Server 2003 R2 SP2 (minimum) - with latest security updates
<b>Processor</b>	Dual Intel Core, Pentium, AMD, or compatible, 3 GHz or faster (recommended); Single Intel Core, Pentium, AMD, or compatible, 2 GHz (minimum)
<b>RAM</b>	32 GB (recommended); 2 GB (minimum)
<b>Free hard disk space</b>	250 GB (recommended); 100 GB (minimum)
<b>Web server</b>	Microsoft IIS 7.5 (recommended); or Microsoft IIS 6.0 (minimum) Tomcat 5.5
<b>SQL server</b>	Microsoft SQL Server 2008 R2 (recommended); or Microsoft SQL Server 2005 SP3 (minimum)
<b>Data access components</b>	iSeries Access ODBC driver V5R4 or V5R6 Microsoft ODBC driver for SQL Server

### CLIENT SPECIFICATIONS

<b>Operating system</b>	Microsoft Windows 7 Professional SP1; or Microsoft Windows Vista SP2; or Microsoft Windows XP Professional - with specified or latest service pack, as applicable, and security updates
<b>Processor</b>	Intel Core, Pentium, AMD, or compatible, 2 GHz or faster (recommended); 1 GHz (minimum)
<b>RAM</b>	4 GB (recommended); 2 GB (minimum)
<b>Free hard disk space</b>	250 GB (recommended); 100 GB (minimum)
<b>Software applications and components</b>	Microsoft Internet Explorer 9.0 (recommended); or Microsoft Internet Explorer 6.0 SP3 (minimum) Java runtime v1.6.0_xx (recommended); or Java runtime v1.5.0_xx (minimum)
<b>Printer</b>	Laser
<b>Screen resolution</b>	1024 x 768 or higher (recommended); 800 x 600 (minimum)
<b>Internet connection</b>	Broadband (DSL, cable, ISDN, WIFI) or LAN-based

- The hardware and software specifications listed in this document are for releases of Yardi INSIGHT version 3.1 software that were available at the time of this publication. As newer system versions are introduced, Yardi reserves the right to update and modify these recommendations.
- The operating system installed on the BusinessObjects Enterprise Server must be a North American version of Microsoft Windows. Microsoft Windows Region and Language settings must be configured for "English (United States)."
- Yardi recommends the use of a dedicated BusinessObjects Enterprise Server. Specifications listed are for 250 concurrent users. If the server will be running additional applications, the recommended specifications should be increased accordingly.
- Hardware, memory, and storage requirements can vary greatly, depending on the number of users, network applications, hard disk sizes, connection type, and other issues. Your organization should regularly review company hardware and software resources and compare them to current system requirements.

- Yardi recommends the use of backup and security components for hardware, data, and application redundancy. This includes backup servers for your Web and database servers, as required. In case of catastrophic server failure, backup servers allow users to work with minimal interruptions in Web, database, and application services. In addition, you should use backup devices for storing your database backup files. As the INSIGHT system is an Internet-based application, good security practices also require the use of standard security hardware and software, such as firewalls and utilities for protection against computer viruses and spyware. Configuration of hardware and application security is the responsibility of your organization and users.
- For computer and peripheral requirements and resources in your organization, contact your system administrator or computer consultant. For additional information about, and updates to INSIGHT system requirements, contact your Yardi technical support.

<sup>1</sup> System requirements presented herein are accurate and reliable to the best of Yardi's knowledge and belief but are not guaranteed to be so. These requirements are subject to change without notice. Nothing herein is to be construed as recommending any practice or any product in violation of any patent or in violation of any law or regulation. It is the user's responsibility to determine the suitability of any equipment and/or procedure for a specific purpose and to use such equipment and/or procedure as may be necessary and pertinent to the user's organization and business practices.
