Yardi® Kube

YARDI KUBE IT MANAGEMENT

Simplify and centralize your workspace IT needs

Deliver secure and reliable Wi-Fi connectivity to individual members and corporate users. Partition and bill bandwidth in real time to customize speed and performance level based on user need. Adding, moving and updating service levels is simplified with an online portal to manage changes from anywhere.

IMPROVE CONNECTIVITY

Centralize Wi-Fi management for fully connected buildings with a fast, dependable and secure network.

ENHANCE MEMBER EXPERIENCE

Personalize service levels with seamless Wi-Fi connection in flexible, member-defined speeds.

GAIN DETAILED INSIGHTS

Get visibility into member and property bandwidth usage through detailed reports and analytics.

YARDI KUBE IT MANAGEMENT

LOCATION ROAMING

Allow members to use the same Wi-Fi credentials at any of your locations. Manage the number of connected devices per member.

BANDWIDTH CUSTOMIZATION

Increase revenue with customized technology packages, create solutions for unique usage levels and give members visibility into their bandwidth utilization.

ENHANCED ADMINISTRATION

Integrate with Yardi Kube Property Management to package, price, market and bill available Wi-Fi services.

EXPAND YARDI KUBE IT MANAGEMENT

YARDI KUBE ACCESS CONTROL

Provide members secure 24/7 access to your property and generate additional meeting room and private office revenue.

YARDI KUBE VOICE

Offer best-in-class voice and communication services on demand. Provide call recording, forwarding, conferencing, automated answering and more.

YARDI KUBE HARDWARE

Ensure you always have the latest equipment and applications to keep your spaces running smoothly with Platform-as-a-Service (PaaS).
