

Yardi® Kube

YARDI KUBE HARDWARE

Exceed member expectations with secure and reliable internet and voice platforms

Improve connectivity in your workspace by delivering high-speed data and a seamless Wi-Fi experience, as well as feature-rich voice solutions. Customize your technology to fit your workspace.

MAKE MEMBERS HAPPY

Allow your members to connect at any location with fast, dependable Wi-Fi and voice services.

INCREASE SECURITY

Strengthen voice and data security without sacrificing quality service and connection.

GET VALUABLE INSIGHTS

Gain visibility into Wi-Fi and bandwidth usage through detailed reports and analytics.

FEATURES

YARDI KUBE HARDWARE

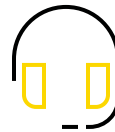

LOCATION ROAMING

Let members use the same Wi-Fi credentials at any of your locations. Control the number of connected devices per member.

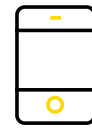

SINGLE NETWORK NAME

Minimize degradation risk and improve performance and security with a single service identifier (SSID).

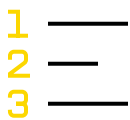

ROBUST VOICE

Provide call recording, forwarding, conferencing, automated answering and other services.

MOBILE CALLING

Allow members to make and receive calls directly from our mobile app using their desk phone credentials.

BANDWIDTH PACKAGES

Create a solution for different usage levels and give members visibility into their bandwidth utilization.
